

Are your patients at risk? **Cardiac Risk Assessment in Youth**

A free CME brought to you by the SDSU Institute for Public Health,
the Eric Paredes Save a Life Foundation, and John Rogers, M.D.

[Click here to access the course](#)

Or go to <https://iph.sdsu.edu/courses/online.php#485>

In this course, you will learn to:

- ♥ Discuss the conditions associated with SCA in youth
- ♥ Recognize the warning signs and risk factors and discuss with parents and at-risk youth
- ♥ Conduct a robust, effective cardiac risk assessment in youth
- ♥ Make appropriate referrals for follow-up cardiac testing
- ♥ Discuss how health care providers can play a role in public education and advocacy
- ♥ Empower youth to be their own heart health advocates

About the faculty: John Rogers, MD, is a board-certified cardiologist with expertise in cardiovascular disease, electrophysiology, nuclear cardiology, syncope, and the implantation of pacemakers and internal cardiac defibrillators (ICDs). Dr. Rogers has been with Scripps Health, San Diego, for nearly three decades. He is the volunteer Medical Director of the Eric Paredes Save a Life Foundation and the President of the San Diego chapter of the Sudden Cardiac Arrest Association
