

## Advances in Dementia Research Across Unique Populations

**September 30, 2016**

**7:30 a.m. - 5:00 p.m.**

**Irvine Marriott Hotel**

New research has shed light on the clinical factors that may be associated with Alzheimer's disease and related dementias. Greater understanding of these conditions has led to advances in diagnosis, caregiver support, novel research approaches, and clinical trials of new targeted therapies. Join us for this full-day conference featuring renowned experts who will discuss the state of the art in dementia research, including discoveries across unique populations such as victims of head trauma and people living with Down syndrome.

### **About the Conference**

The Annual Southern California Alzheimer's Disease Research Conference is hosted by the UC Irvine Institute for Memory Impairments and Neurological Disorders (UCI MIND) in partnership with Alzheimer's Orange County (formerly Alzheimer's Association, Orange County Chapter). Reaching a diverse audience of over 400 clinicians, researchers, students, aging-services providers, and caregivers, the conference brings together nationally renowned researchers to address our nation's progress in the battle against Alzheimer's disease and related dementias.
