

Responsible Opioid Prescribing

Friday, October 2, 2020

Purpose

The purpose of this activity is to provide an overview of responsible opioid prescribing in the primary care setting.

Target Audience

This activity was developed for primary care physicians, nurses, therapists and other professionals who provide care for patients in the workplace.

Activity Objectives

At the conclusion of this activity, the participants should be able to:

- Review changing viewpoints on opioid prescribing
- Strategies to assess risk vs. benefit of opioid initiation
- Documenting properly in today's "anti-opioid" environment
- Discuss how to taper opioids

Accreditation Statement

The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement

The University of California, Irvine School of Medicine designates this enduring material for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

California Assembly Bill 1195

This activity is in compliance with California Assembly Bill 1195, which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. For specific information regarding Bill 1195 and definitions of cultural and linguistic competency, please visit the CME website at <http://www.meded.uci.edu/CME>.
