DESCRIPTION

Students choose a local private practice family physician and submit their choice to the course coordinator. The family physician must be affiliated with UCI, usually as volunteer faculty. Additionally, the student may not enroll in the course with a family physician that has previously provided clinical care for the student. Emphasis is on direct personal preceptorship of the student by the physician. During the elective, the student will spend as much time as permitted with the physician in the office, on house calls, in the hospital or in any other site the physician may practice.
