

655D CLINICAL MICROBIOLOGIC PATHOLOGY

Students must obtain permission from the course coordinator who will obtain faculty approval based on availability prior to enrollment in this course a minimum of two months prior to expected enrollment.

Course Description: Rotations in areas of Bacteriology, Molecular Microbiology, Mycology, Mycobacteriology, Parasitology, Serology and Virology. Participation in clinical and technical activities of the division. Involvement in the processing and evaluation of clinical specimens in relation to patient care. Clinical correlations presented at Infectious Disease Laboratory Rounds.

Department: Pathology & Laboratory Medicine

Prerequisites: UC Irvine students must have successfully completed the MS1 and MS2 years. Extramural students must be in the final year of undergraduate medical education and have completed course work equivalent to UC Irvine's Clinical Pathology and General Pathology courses.

Restrictions: Students must obtain permission from faculty (Dr. Peterson) at least two months prior to the planned elective. Availability of the rotation depends on other teaching obligations during the requested period. This rotation is not accepting international students

Elective Director: Robert A. Edwards, M.D., Ph.D., UC Irvine School of Medicine, Department of Pathology & Laboratory Medicine, Med Sci I, Room D435, Irvine CA 92697, 949-824-8576, redwards@uci.edu

Instructing Faculty: Dr. Luis de la Maza, Dr. Ellena Peterson, & staff

Course Website: Will be accessible during the rotation

Who to Report to First Day: at least a week before the rotation this information will be sent to you.

Location to Report on First Day: at least a week before the rotation this information will be sent to you.

Time to Report on First Day: at least a week before the rotation this information will be sent to you.

Site Coordinator: Stefani Ching, UC Irvine School of Medicine, Department of Pathology & Laboratory Medicine, Med Sci I, Room D440, Irvine, CA 92697-4800, (949) 824-5367, stefani.ching@uci.edu

Site: UC Irvine Medical Center, Building 54

Periods Available: Throughout the year but will depend on the availability of the instructors and laboratory staff.

Duration: 1-2 weeks

Number of Students: 2

Scheduling Coordinator: UC Irvine students please email comsched@uci.edu or call (714) 456-8462 to make a scheduling appointment. Please read the following information carefully. Any student enrolled at a U.S. LCME or COCA medical school will use VSAS to apply. To apply please refer to this website <http://www.aamc.org/programs/vsas/> International students will not use VSAS. To apply please refer to the application link towards the top-left of this page. All Extramural students please contact Stefani Ching, UC Irvine School of Medicine, Department of Pathology & Laboratory Medicine, Med Sci I, Room D440, Irvine, CA 92697-4800, (949) 824-5367, stefani.ching@uci.edu

Course Objectives: Depending on the areas of interest chosen by the student, at the end of this rotation the student will be able to:

- have basic understanding of diagnostic bacteriology
- have basic understanding of diagnostic mycobacteriology

- have basic understanding of diagnostic mycology
- have basic understanding of diagnostic virology
- have basic understanding of diagnostic serology
- have basic understanding of diagnostic parasitology
- have basic understanding of diagnostic molecular microbiology

Key Topics:

- Diagnostic bacteriology
- Susceptibility testing
- Diagnostic mycobacteriology
- Diagnostic mycology
- Diagnostic virology
- Diagnostic molecular microbiology
- Diagnostic parasitology
- Clinical serology
- Specimen processing
- Direct microscopic examination of specimens.

Competencies:

- Clinical indications for ordering microbiology tests available, their limitations and strengths.
- Requirements for collection and transportation of clinical specimens for microbiology
- Handling and processing of clinical specimens in the microbiology laboratory
- Interpretation of microbiology laboratory tests.

Attitudes & Commitments:

- The student will demonstrate honesty and integrity reflecting the standards of the profession.

Educational Activities: A general overview of Diagnostic Microbiology may have a rotation as outlined below. However a more tailored rotation depending on the background of the student may be more focused on a particular area.

Example of a general rotation:

- Day 1: Central processing area
- Day 2 and 3: Blood cultures and antimicrobial susceptibility testing
- Day 4: Urine and respiratory cultures
- Day 5: Genital and stool cultures
- Day 6: Virology
- Day 7: Parasitology
- Day 8: Mycology
- Day 9: Molecular Microbiology
- Day 10: Serology

What Students Should do to Prepare for the Rotation: Review clinical pathology, medical microbiology and immunology medical school courses.

Clinical Responsibilities of the Student: This is not a clinical rotation

Patient Care Responsibilities: This is not a clinical rotation

Call Schedule of the Student: This is not a clinical rotation

Procedures to be Learned by the Student: Handling and testing of clinical specimens in the diagnostic microbiology laboratory

Percentage of Time Student will Participate in Ambulatory Setting: This is not a clinical rotation

Conference/Lecture/Small Group Sessions: There are standard lectures, and online teaching materials

- Bacteriology
- Susceptibility testing
- Virology and Molecular Microbiology

Course Hours Weekly Summary:

	Computer Assisted Instruction
2-4 hr/wk	Conference
2 hr/wk	Laboratory Rounds
4 -6 hr/day	Laboratories
2-4 hr/wk	Lecture
1-2 hr/day	Other: reading, writing, journaling
30-40 hr/wk	Total

Content Theme Integration:

- Evidence Based Medicine

Recommended Reading: Selected in accordance with objective and diagnostic material.

Official Grading Policy: The student will receive a grade of Honors, Pass or Fail. The student's final grade will be submitted on the standard UCI elective form. Based upon attendance, initiative and course knowledge. Students will be expected to make one oral presentation on a select topic and pass a written examination. If the student fails the elective, a grade of "F" will be permanently recorded on his/her transcript. The student can repeat the course for a second grade; however, the "F" will not be removed from the transcript.
