

Christian Medical College, Vellore, India

Electives

HOW TO APPLY FOR PLACEMENT AS AN ELECTIVE STUDENT OR STUDENT VISITOR OBSERVER

Christian Medical College, Vellore welcomes foreign medical students and those doing allied health courses who would like to visit the institution. Students are accepted all through the year.

ELECTIVE STUDENT: For foreign medical students, it is necessary to obtain formal permission from the Medical Council of India (MCI) and the Ministry of Health (MOH) in India for the student to spend a period of study as an elective student in this country. For this purpose an application form needs to be completed and returned to the Vice-Principal (undergraduate medical education), Christian Medical College, Vellore 632 002 Tamil Nadu, India, along with a letter from the Dean of the medical school / university the student attends, 2 passport-sized photographs of the student, five photocopies of his/her passport and a draft for \$40/- as processing fee (see below for details). The application forms are available on-line and may be down loaded for use.

Alternatively, please contact the office of the Principal, Christian Medical College, Vellore at princi@cmcvellore.ac.in and the form and information about Christian Medical College, Vellore will be mailed to you. Processing of papers by the MOH and MCI usually takes about 3-4 months after the application is received by them. A processing fee of U.S.\$150/- (U.S.\$125/- for Medical Council of India fee and U.S.\$25/- towards processing and postage charges) is also required. This may be sent by bank pay order or bank draft made in favour of Christian Medical College Vellore Association account drawn on any Indian bank, preferably State Bank of India, payable at Vellore or Chennai. The draft should be sent in along with the application form. Alternatively it is also possible to send the money by bank transfer. The address for this is State Bank of India, Vellore Town Branch, Bank Code:1618 Ida Scudder Road, Vellore – 632 004, Tamil Nadu, India Current A/c No.30053082003 Christian Medical College Vellore Association. SBI FAX No:0416 – 2222188 SWIFT Number: SBININBB 473. If this is not possible, please send the bank draft drawn on Bank of New York. Please see that the required documents and the processing fee are included in the remittance, as incomplete applications can lead to further delay in processing of papers by the MCI.

The student will be contacted again after permission is received from both the MOH and MCI. The elective period shall not normally exceed 12 weeks. The dates given in the elective application form cannot be changed without further clearance from the MCI.

For foreign students doing allied courses (such as physiotherapy and occupational therapy & other courses), the process of application is simpler. Such students need to get in touch with the office of the Principal (princi@cmcvellore.ac.in), stating when they would like to visit. They will then be instructed how to proceed. Details of fees for such

students are given in the section “general information for visiting foreign students”. It is the responsibility of the student concerned to make sure he/she obtains an Indian Visa valid for the period of his/her stay. Travel arrangements are also to be made by the students themselves.

VISITOR STUDENT OBSERVER: If permission is not obtained in time from the MCI and MOH, a student can come as a “VISITOR STUDENT OBSERVER”, provided no official certification for the time spent here is required. In this status, the student can take part in all aspects of study as mentioned below for elective students. The only differences are that (1) the College will not issue any certificate/assessment paper and (2) this period shall not exceed 4 weeks. However, arrangements can be made for the student to spend an additional 2 weeks in mission hospitals nearby, if the student so wishes. **Visitor observers need to pay a fee of \$100/- for the period of 4 weeks.** They do not need to fill in any application form. They simply need to write to the Principal’s office, Christian Medical College, Vellore giving the dates of their visit and enclosing a processing fee of \$25/-.

OTHER FEES: Elective students need to pay a fee of \$ 30 for each week. All fees are subject to change and the fees in vogue at the time of the visit will be levied. Money once paid will not be refunded. Kindly do not send more money than needed for the fees. If excess money is sent, the college will not be able to cash the money and return the excess to you as the Foreign Exchange Regulations Act (FERA) in India prevents the college from doing so. Alternatively, the money can be paid in rupees on arrival here, after encashing foreign currency at one of the banks in India. However, the processing fees should be sent with the application itself.

CLINICAL POSTINGS DURING ELECTIVE PROGRAM

The clinical posting will be organized by the respective departments. The posting will consist of outpatient clinics, ward rounds, bedside clinical teaching, academic sessions, lectures, and operation theatre. You will be allowed to work up patients by yourselves with permission of the treating physician and the patient. You will not be allowed to prescribe and perform procedures. We will try to ensure that the posting meets your educational needs.

Choosing clinical posting for your elective

The elective program is planned in a flexible way to ensure that you experience the range of clinical medicine that is practiced in India. We would like you to choose your postings at the application phase in order to ensure a good learning experience.

The suggestions provided below give you details about departments, undergraduate curriculum schedule and elective student experience. This will help you choose your posting appropriately. We will try and provide postings that are suited to your learning needs.

We advise one posting under each of the following categories:

- A posting along with undergraduate students at Christian Medical College at your corresponding academic level (between 1-4 weeks).

A clinical posting of your choice which need not be with medical students (between 2-4weeks)

A posting in Community health care for 2-4 weeks at

- CHAD (Community Health and Department) or
- RUHSA (Rural Unit for Health and Social Affairs) or
- LCEC (Low Cost Effective Care)

Please specify the posting that you would like to opt for under 1, 2 and 3 as well as the duration. We will not be able to change your schedule after arrival.

To help you choose your elective postings we suggest that you study the following:

1. CMC website-individual department pages (<http://www.homepage.cmcvellore.ac.in>)
2. undergraduates MBBS clinical posting schedule for entire course(Pg.No.19-22)
3. Elective students website - to be prepared

EVALUATION OF ELECTIVE STUDENTS

Elective students who come to Christian Medical College, Vellore will be evaluated by the departments that they are posted with. A final evaluation report, with copies of clinician's evaluation form will be provided at the end of the posting. At the end of your posting we would like you to fill up a feedback form regarding your visit and posting.

We also request you to send us a copy of the report that you submit to your university by e-mail.

GENERAL INFORMATION FOR VISITING FOREIGN STUDENTS

The Christian Medical College Vellore Association is a private inter-denominational Christian organization. The object of the Association is the establishment, maintenance and development of a Christian Medical College in India where women and men shall receive an education of the highest grade in the art and science of Medicine and Nursing or in one or other of the related professions, to equip them in the spirit of Christ, for service in the relief of suffering and the promotion of health. The medical college is affiliated to the Tamil Nadu Dr.M.G.R.Medical University, Chennai,India.

The Christian Medical College & Hospital community is made up of an interesting and diverse group of people - students and faculty come from all over India and a number of other countries, such as Sri Lanka, Malaysia, Hong Kong and Singapore. Elective students and volunteer workers come from Australia, Britain, USA, Germany, France, Sweden, Denmark and New Zealand. This interchange between varied people and cultures has been found to be mutually beneficial. It is hoped that you too will find it so and that your time in Vellore will be enjoyable and satisfying.

LOCATION AND CLIMATE: Vellore is 60 metres above sea level, situated 140km. south west of Chennai and 200km. east of Bangalore. Vellore is on the plains surrounded by low, rocky hills. The temperature ranges from 20o C in the winter months of Dec.-Feb to 43o C in the summer months of Apr. - June. The climate is essentially dry, being rainy and humid only at the times of the two monsoons: June – August and October - December.

GETTING TO VELLORE: The airport closest to Vellore is in Chennai. An airport bus will take you from the airport into the city from where you can take a taxi to the Central Railway station. Alternatively you can go from the airport to the bus stand at Koyambedu. Train and bus services to Vellore are frequent, cheap and quite satisfactory. Either journey takes about 3 hours. If you choose to travel by train you should buy your ticket to Katpadi, which is the railway station that serves Vellore. Autorickshaws, buses and taxis are available at Katpadi station for the 7km journey to the Christian Medical College Hospital. Buses from Chennai will bring you right into the centre of the town of Vellore, within walking distance of the hospital.

The most convenient, but expensive mode of transport from the airport at Chennai to Vellore is by taxi. If you require a taxi to pick you up at Chennai airport and bring you to Vellore kindly indicate so and include U.S.\$35 (U.S.\$40 for an air-conditioned vehicle) in your remittance towards taxi charge. This amount is non-refundable. Please inform us of your travel plans well in advance, giving your date and time of arrival and other flight details. Alternatively, you can pay for the taxi in Indian currency when you get to your destination in Vellore. If you choose to do this, please ensure that you change your foreign currency into Indian rupees at Chennai airport itself.

If you would like to stay on in Chennai before coming to Vellore, you may write directly to The Manager, Inter-Church Service Agency, 107 Pantheon Road, Egmore, Chennai-600 008, phone no:0091-44-28261905 ahead of time to reserve accommodation. If you want them to arrange a taxi for you to come from Chennai to Vellore, they will be happy to do so on payment.

VELLORE TOWN: Vellore town is the head quarters of Vellore District. Its population is about 200,000. It is a marketing center for a fairly prosperous agricultural area. The streets are lined with small shops and crowded with people, cyclists, cars, buses, lorries and livestock. There is an interesting large Hindu temple and a 13th Century fort in the centre of town. The fort has played a well-known part in Indian history.

THE CHRISTIAN MEDICAL COLLEGE AND HOSPITAL CAMPUSES: The hospital campus is situated in the middle of Vellore town while the college campus is situated at Bagayam, 7 km away from the hospital. All medical students live in hostels on the college campus in Bagayam. The pre-clinical subjects are taught at the college campus. In addition, on the college campus, there are 3 patient care units - the Community Health Department which runs the 80-bed CHAD hospital, the Rehabilitation Institute for physically handicapped persons and the Mental Health Center, which is CMC's Department of Psychiatry, and which includes a training center for mentally challenged children.

All other clinical departments are on the hospital campus in Vellore town, except for the Ophthalmology Department which is located at the Schell Eye Hospital on a separate campus 2km south of the main hospital, and RUHSA (Rural Unit for Health and Social Affairs), a comprehensive integrated rural health and development project, located 20 miles northwest of Vellore.

LANGUAGE

Tamil is the language spoken by most of the people in the state of Tamil Nadu where Vellore is located. The national language, Hindi, is also spoken. However, many South Indians, including shopkeepers, know English, so most visitors who speak English, do not have too much trouble making themselves understood. Elective students may need to ask someone to help translate when talking to patients. However, English is the medium of instruction in the college.

POSTAL

There are post offices on both the hospital and college campuses. These are open every day, except Sundays and national holidays. The main post office in the centre of Vellore provides 24 hour service. Mail delivery is, by and large, reliable.

It is advisable to register all letters that are of special importance, such as those with exposed film, cheques and all packets and parcels.

SERVICE

TELEPHONE/TELEGRAMS/TELEX/INTERNET ACCESS

	CMC HOSPITAL	MEDICAL COLLEGE
Telegraphic address	MISSIONHOS	MEDCOL
Telephone No.	Principal's office 0091-416-2284201	0091-416-2284202
FAX		0091-416-2262788 0091-416-2232268,2232035
E-Mail	princi@cmcvellore.ac.in	

Long distance telephone calls within India and overseas can be made directly from telephone kiosks situated on the hospital and college campuses.

Internet access is available as part of the library services in the institution or at internet cafes in the town.

BANKING

The Central Bank of India and the State Bank of India have branches within the campuses and across the road near the hospital. Travellers' cheques can be cashed in these banks and others in Vellore.

ACCOMMODATION: For accommodation please contact Mrs. Shirley David, Dy. Director, incharge of elective students. Her e-mail address is dir.fvv@cmcvellore.ac.in They will arrange accommodation on the campus to the extent possible. If

accommodation is not available, then they will direct you to accommodation outside the college premises. A list of hotels is included at the end of this information section. Please contact them to make your bookings before you set out. Confirmation should be obtained of your accommodation before arrival, as finding accommodation after arrival in Vellore is difficult.

FOOD: There is a YWCA canteen inside the hospital campus where safe food is available at reasonable rates. There are a number of vegetarian and non-vegetarian restaurants near the hospital with food at reasonable prices - a vegetarian meal costs about Rs.60 and a non-vegetarian meal about Rs.100. It may be best to avoid uncooked food and any food cooled to room temperature. It is also better to avoid drinking water outside the hospital and college campuses unless you are sure it has been boiled or comes from a safe source. Bottled beverages in the market are safe except for those with a glass marble seal. In India, coffee and tea are traditionally made with boiled milk and sugar. Shop-keepers will provide these drinks without milk and/or sugar if you give specific instructions. There are several bakeries close to the hospital where bread, biscuits, cakes, pastries, butter, jam, peanut butter, tinned cheese, sardines, sausages, tuna fish, etc, can be purchased. A variety of fruits are readily available. Fried snacks sold in street stalls are mainly vegetarian and can be very spicy. Consumption of alcoholic beverages on both the hospital and college campuses is not permitted.

CLOTHING: The dress code for work is formal. Suits and ties are not worn. Generally, men wear short-sleeved shirts, trousers and sandals/shoes. For women, sleeved dresses, long skirts/trousers and modest blouses, punjabi pants and tunic or sarees with sandals are appropriate. T- shirts are not advised. White coats are not usually worn by doctors or medical students. Cotton is cooler than synthetic fabrics. Shoes and sandals are quite cheap and can be bought ready-made or made to order. Cloth shops and tailoring shops abound, and it is comparatively inexpensive and quick to have clothes stitched to size. Ready-made clothes are also easily available. We advise you to be well dressed at work.

IMMUNIZATIONS AND POSTEXPOSURE PROPHYLAXIS: Please contact your travel clinic to obtain information on prophylactic measures to be taken for your visit to India.

Universal precautions are implemented throughout Christian Medical College. Since elective students are not performing procedures the likelihood of blood borne exposures are extremely low. However in case of exposure, post-exposure prophylaxis for Hepatitis B and HIV are available at Christian Medical College.

HEALTH PROBLEMS: If you need help with any health problems, please contact the Staff Student Health Clinic in the Hospital, during working hours and Accident and Emergency department out of working hours, which will arrange for the necessary care. Elective students will have to pay for their health care.

WHAT TO BRING: It is advisable to have a good torch/flashlight for walking about the campuses at night and for unannounced power cuts which may occur. All toilet articles such as soap, powder, shaving cream and blades, toilet paper, shampoos, sanitary napkins, tampons, etc are readily obtainable in local shops. Black and white film and

colour photographic film are also easily available but if you are used to a particular type of film, it may be advisable to bring your own.

In general, the only medical instrument that needs to be brought is a stethoscope. Reflex hammers can be borrowed and ophthalmoscopes are available in the hospital. Electricity supply is 220 volt, AC, 50Hz. Please bring a few copies of your passport sized photographs, copies of the pages of your passport with visa and your photograph for police verification. This procedure of registering with police may have to be completed even before checking into hotels.

MEDICAL BOOKS: Most of the commonly used medical text books are available in the institutional libraries. These books can be referred to in the libraries but will not be loaned out. Library timings on week days are as follows:
College: 8.00 a.m. to 11 p.m.
Hospital: 7.30 a.m. to 12 midnight.

There are small book stores in Vellore which sell standard medical text books. Many Asian editions of medical text books are subsidized and as such will often be cheaper than the same books in developed countries.

TRANSPORTATION IN VELLORE: Institutional buses ply between the hospital and college campuses at specific times. Timings can be ascertained from the Hospital Transport Department. Town buses ply between the 2 campuses every 5-10 minutes, from 5AM to 10PM. These buses can be boarded from a bus stop one block west of the hospital. Autorickshaws and taxis are easily available, but are not metered.

RECREATION: To a large degree, the medical students and staff provide their own entertainment. There are facilities for basketball, tennis, badminton, volleyball, hockey, cricket, football (soccer) and athletics at the college. In addition, there are tennis courts on the hospital and college campuses. Apart from the medical libraries at the hospital and college, there are libraries maintained by the Chaplaincy Department where anyone is welcome to borrow religious and general reading books and magazines. There are a number of movie theaters in town, most of which show films in various Indian languages. Only one or two show English movies at any given time. Bicycles are readily available for hire. There is a swimming pool next to the college campus available for use. The beach at Mahabalipuram on the east coast, 60km south of Chennai and a 4hr. bus ride from Vellore, is a good weekend recreation spot. Vellore has clubs such as the Rotary, Lions, Round Table and a Ladies' Recreation Club.

The medical college has a regular schedule of extra-curricular activities, which visitors are welcome to attend.

LIVING EXPENSES: Living expenditure per day would amount to approximately Rs.500 (approx.U.S.\$12) which includes room rent, food and other expenses.

The Foreign Exchange Regulations Act in India prevents the institution from payment of any money by way of refund, etc. for any payment made in foreign currency. Other refunds are also not possible.

FEES FOR VISITING FOREIGN STUDENTS

Elective Medical Student: Processing fee and elective application fee to Medical Council of India U.S.\$150 (\$125 for MCI fee and \$25 for processing & postage). This amount should be sent along with the application form.

Student elective fee: U.S.\$120 for 4 weeks and U.S.\$30 for each additional week. This amount can be paid on arrival.

Student Observer: Processing fee U.S.\$25 (to be sent along with the letter applying for a placement). Student Observer fee U.S.\$100 for a period of 4 weeks (\$3.57/day). This may be paid on arrival.

MISCELLANEOUS INFORMATION: The Christian Medical College is a Christian institution which aims to impart to women and men an education of the highest grade in the art and science of medicine and to equip them in the spirit of Christ, for service in the relief of suffering and the promotion of health. This is a residential college in which interest lies not only in providing training in professional skills, but also in cultivating a sense of community and of commitment, a growth of character and a sensitivity to the needs of others. This is expressed in the College motto, which is based on Christian scripture, "Not to be ministered unto, but to minister.

When you come to C.M.C. for an elective period, you come not just to attend classes and clinics, see patients in the out-patient clinics and wards, and to take part in other academic activities, but you also come to live in the community. The cultural expectations and norms of behavior of a community here in India, and especially of a Christian community, may be different from that in your own college and to which you are accustomed. Foreign students coming here must be aware of and sensitive to these differences, and while here, consciously try to accept the norms of this community for the period of their stay. The C.M.C. community is diverse, and there is no uniformity of values but there are some patterns and practices, common in student communities in some other countries, which are alien to the norms here. These specifically include the use of alcoholic beverages on the hospital and college campuses and distribution or use of marijuana (ganja), LSD or other addictive or psychotropic drugs. In addition, you may be used to living in mixed dormitories, but in this institution single men and women are not allowed to stay together.

We would welcome you to participate in as many institutional community activities as possible to enable you to understand the traditions and ethics of the place. We would specially invite you to attend worship programs in English on all Sundays in either the College or Hospital Chapels. Members of the Evangelical Union of India meet in the College campus every Sunday. You can find the place of meeting with the help of the staff of the Principal's Office.

Apart from the specific departments to which you would like to be posted, you may find it useful to attend some of the teaching programs arranged for the final year clinical students, details of which may be obtained from the Curriculum Office situated on the hospital campus.

It is hoped that your experience here will be profitable to you. The members of the community here, in turn, will try to make your time here enjoyable and rewarding.

GUIDELINES FOR ELECTIVE STUDENTS WISHING TO DO RESEARCH DURING THEIR TIME AT CHRISTIAN MEDICAL COLLEGE & HOSPITAL

- Visitor-observers are not permitted to do any research projects.
- One of the faculty members of CMCH should be the local supervisor.
- The local supervisor should obtain the concurrence of the Head of the Department concerning the feasibility of the study and obtain permission for the student to carry out the work.
- All work, including data collection and analysis, should be done only under the supervision of the local supervisor.
- Raw data shall not be allowed out of the institution
- If the student is unable to complete the study before leaving, the local supervisor/head of the department will complete it with or without the help of other personnel/other visitors. Due credit will be given depending on the extent of work completed by the student.
- Due acknowledgement should be given to the institution on any publication arising out of this work.
- The local supervisor shall be the author for correspondence.
- It is the responsibility of the local supervisor to instruct the students on the proper code of behavior, dress etc.
- Where patient care is involved, clearance from the Ministry of Health is needed.
- 11. Clearance from the Research Committee and, if necessary that of the Ethics Committee is required for all research projects.
- Clearance from the appropriate Government authority is needed, except for help in on-going projects.
- If foreign funds are involved, clearance must be obtained through appropriate Government authorities.
- Non-medical students should get clearance from the Ministry of Human Resources and Development.
- There shall be no financial commitment on the part of CMC.
- The elective period spent shall not be less than 8 weeks.
